

## What has CBA/ABATE Done for You Lately?

### 2011 Accomplishments:

#### Right-of-Way Protection for

**Motorcyclists:** CBA/ABATE of NC racked up a major victory in the 2011 Session with the enactment of House Bill 113 (SL2011-361), a bill that significantly increases the penalties for crowding a motorcyclist out of his/her lane or causing injury to the motorcyclist. This bill was introduced at the request of and was actively supported by CBA/ABATE.

**No More Motorcycle-Only Checkpoints:** CBA/ABATE scored another major victory with the enactment of House Bill 381 (SL2011-216), legislation that prevents law enforcement agencies from establishing patterns for vehicle stops at checking stations based on a particular type of vehicle. This bill was actively supported by CBA/ABATE of NC and is a major victory in the battle to protect motorcyclists from discriminatory profiling by law enforcement agencies.

**Expansion of Motorcycle Safety Awareness Training**  
- At the request of CBA/ABATE of NC, House Bill 200, enacted as SL2011-145, included a provision that requires drivers education instruction to include at least one hour of motorcycle safety awareness.

**Helmet Exemption for ATV Users:** CBA/ABATE of NC successfully supported H 407, enacted as SL2011-68 - providing that persons who are 18 years of age or older operating an ATV off a public street or highway and those who are at least 16 years of age operating an ATV on the beach need not wear a helmet meeting USDOT motorcycle helmet standards.

**Enhanced Motorcycle Awareness -** CBA/ABATE successfully supported the use of DOT electronic message signs (Amber Alert) to deliver motorcycle awareness messages.
